Amy,

We double-checked, and we produced the full copy of the phone to you on February 9, 2018. A copy of the cover letter is attached. If you would like another copy, we'll need a thumb drive of at least 8 GB.

Best,
Jordan

We'll start with the copy of the full forensic image, thanks. What size hard drive will you need from us?

Amy,

We're happy to give you a copy of the full forensic image of Middendorf's phone. To the extent you'd like to inspect the hard drive from KPMG, you'll have to do that at our office, since it also contains images of the other defendants' phones.

Best,
Jordan

Hi all –

I'm following up on my conversation with Jordan yesterday. After talking on our end, we haven't foreclosed the possibility of a stipulation (particularly as to chain of custody/authenticity), and appreciate the additional documents you have provided on that, but we would still like to inspect/copy the full forensic image of the cellphone as described in my original email. If it would be easier or more efficient for us to coordinate directly with KPMG to obtain that, let us know. I'm also around today if you would like to talk further.

Thanks,
Amy

Great, I'll try you at 4. In the meantime, here are the extraction notes from USPIS.

Amy and Nelson,

Attached are two chain of custody documents regarding the phone. We're working on getting you additional information on the imaging and extraction. Do you have time for a quick call later today?

Best,
Jordan

Subject: Dave Middendorf's cellphone

Amanda, Rebecca, and Jordan,

As we mentioned on our phone call, pursuant to Rule 16(a)(1)(E), we are requesting a copy of all forensic cell phone acquisition files generated during the government's cell phone acquisition/analysis conducted on 03/17/2017 of Mr. Middendorf's cell phone (iPhone 8 - Ser # F2LRL53WGRWT). We've been told that should include any and all examination reports, expert findings, examiner findings, expert reports, examination notes, evidence logs, evidence chain of custody, examination photographs and or videos of said process and any other records, reports relating to the forensic examination of the cell phone. We will provide a hard drive for the files if you let us know the appropriate size.

Finally, as far as a stipulation, it would be useful for us to know (1) what the relevant witness will say about the phone and the note file at issue and/or (2) to receive a draft stipulation addressing the same.

Thanks,
Amy
